

## ADVANCED 4-H FORESTRY EXHIBIT SCORE SHEET

**Exhibitor's Name or No.** \_\_\_\_\_ **Class** \_\_\_\_\_ **Placing** \_\_\_\_\_

Member may exhibit in one topic or make one exhibit by combining topics. Exhibit topics from which members may select are: (A) cones; (B) tree seeds; (C) conks; (D) damaged specimen; (E) bark; (F) wood mounts; (G) lumber mounts and (H) other educational displays. Educational displays may include management plans, tree farm maps, model camp-sites, career opportunities of forestry concepts.

The exhibit may be flat board or three-dimensional. The maximum size for a flat board display is 30 inches by 30 inches. The maximum size for a three-dimensional display is 30 inches wide, 24 inches deep (front to back) and 30 inches high.

Specimens from topics A through G may be mounted on plywood, pressed board, or other firm surface using glue, wire, nails, screw hooks and eyes or other mounting techniques. The specimens in the exhibit must be collected and prepared in the current 4-H year.

The size of the mounting board should be in proportion to the size of the mounts on it. It may not be finished, but should be neat. Some specimens such as cones may be cut in half. Wood mounts should be 2-4 inches in diameter and about 4 inches long. Lumber mount dimensions should be about 1" x 4" x 6". Each specimen must be identified with the **location** where it was collected (i.e. Salem), the **range** where it naturally grown (i.e. the Willamette Valley) and the **date** it was collected.

### Scoring

	Excel- lent	Good	Fair
<b>Accuracy</b> --Correct common name; names used in 4-H project material, names correctly spelled. (Scientific names are not required for first two years, but are required in later years.) Capitalization optional on labeling--mounts <b>except</b> proper names and genus in scientific names.			
<b>Completeness</b> --The required number of specimens. Source(s) of information - Accuracy and complete--clear and concise			
<b>Selection and Condition of Specimen</b> - that "looks right" for the species--not oversized, off color, underdeveloped, or deformed.			
<b>Mounting and Appearance</b> --Specimens carefully prepared, arranged neatly, and securely fastened. Notebook sturdy, attractive, and easy to leaf through.			
<b>Exhibit Score</b>
